ABOUT THE COURSE

A comprehensive 2 day course which includes:

- Demonstration of relevant anatomy to regional anaesthetists on cadavers by Anatomy Lecturers at Durham University
- Small group work teaching (4-5 delegates per instructor) with simultaneous cadaveric teaching and scanning on volunteers at each station
- Lectures on updates such as lipid rescue and compartment syndrome
- Hands-on learning of needle techniques and catheters on Phantoms
- Opportunity to discuss tips and tricks with international experts in ultrasound regional anaesthesia

"This was the best workshop that I attended in years, I learned so much"

"A superb course and very well organised. The speakers were all excellent"

"A truly brilliant day - I would recommend"

"This was probably the best course I have been to in ten years. The cadaveric anatomy was informative, well managed and refreshing"
